Our Experience & References

At OT-DRE, we understand and acknowledge that Information Technology is the future and in today's evolving and competitive environment, it is very important we have world class solutions to deliver to our customers.

We were part of delivery of Information technology Infrastructure and data centre to Ibrahim Badamosi University, Lapai Niger State. The network is arguably one of the most robust of its kind.

It is a multi-vendor platform infrastructure incorporating a private cloud, security, switching, bandwidth optimization supported by a full mesh active/passive setup that provides full redundancy at all the layers of the network.
